Christmas Gifts

Are about ripe, and many persons are in doubt as to what are the proper and most suitable things to give to their friends. Let us suggest that nothing can be more appreciated than something that will be useful.

Dawes & Reynolds

have on display a new and attractive line of Handsome

Shoes, Shirts, Neckties, Mufflers
Gloves, Collars, Cuffs,

and numerous other small articles that a gentleman will appreciate. They also have Elegant Suits and Overcoats, for those who want to be MORE LIBERAL with their gifts.

Some one has said that Tennyson could take a useless piece of paper and write a poem on it and make it worth \$65,000

And the people call that Genius.

That Vanderbilt can write a few words on a small piece of paper and make it worth \$5,000,000.

That is defined as Capital.

A Mechanic can take material worth only \$500, make it worth \$1,000.

They term that Skill.

Marshall could so improve that it would equal some larger city.

That would be Enterprise.

A gentleman might wear a hat worth but \$50 cents, but he prefers one at \$5.00.

This would be good Taste.

There are people who buy goods and fail to visit Our Store before they make their purchases.

Surely this is a Mistake.

Here you will find *Genius, Capital, Skill, Enterprise, and Taste combined, and this gives great satisfaction.* Don't forget to visit
